The publishers take pleasure in announcing the completion of this, the most elaborate, comprehensive and perfect Gazetteer of the United States that has ever issued from the press. In its preparation, no consideration of expense or labor have been allowed to interfere with a work designed to be as perfect as possible in every department, and in its details. Nor have the successive issues of other Gazetteers, burried through the press to claim the market, tempted the publishers to offer their book before all the ample Census of 1850, and other materials in the hands of the Editors, were fully digested and

accurately arranged. When this Gazetteer was first announced, 800 pages, or 900 at the most, were designed as the limit of the book; but so vast was the amount of matter, accumulated through the personal labor of the editors and their assistants, as well as through the active efforts of several thousand Correspondents in all parts of the United States, the work has swelled to near 1300 pages. The amount of new matter it coutains is very large, in many instances embracing Statistics and populations to 1853. This gives it an intrinsic value over every other work of the kind in

existence. We therefore offer our Gazetteer confidently, as the only complete, accurate and thoroughly reliable Gazetteer of the United States. Price \$4. For sale by all booksellers.

The illustrations are accurate, and will impress scenes and incidents upon the memory of the reader.
